

国立医薬品食品衛生研究所報告第115号キーワード索引 (アルファベット順)

A

A-21desamido insulin 140
 A549 299
 AAMI 311
 absolute stereochemistry 125
 acetylshikonin 267
 acidic conditions 286
 acridine 282
 acute poisonings 266
 acute toxicity 286
 acylated anthocyanin 277, 278
 adaptation 286
 aerial part 308
Aeromonas 284
 aflatoxins 278, 311
 AIDS 152
 aldose reductase 302, 316
 aldose reductase inhibitor 302, 316
 allergic contact dermatitis 272
 altenative study 315
Alternaria 286
 alternative study 315
 aluminum 279
 Amazone 310
 amine-type antioxidant 272
 D-amino acid 280
 analysis 312
 Andes 310
 Angelica Root 317
 animal scale-up 314
 annatto 278
 ANOVA 265
 anthocyanin color 280
 anthraquinone 280
 anti-androgen activity 271
 anti-Fas antigen 287
 anti-HIV drugs 152
 anti-inflammatory activity 267
 anti-inflammatory effect 270
 antibody production 274
 antifungal activity 285
 antigen determinant 287
 antigen presentation 287
 antigen release 273
 antigen release profile 274
 antiimplantaion 307
 antioxidant 280, 281, 295
 antipsychotic drugs 289
 apolipoprotein A-I 304
 apolipoproteins 303
 apoptosis 287, 293, 314
 ArcView 155
 arsen 311
 AS52/*gpt* assay 300
Aspergillus niger 285
 astaxanthin 99
 Astragali Radix 308
 astragaloside 308
Astragalus mongholicus 308

ATP 288, 314
 ATPase 289
Atropa belladonna 309
 atrophy of lympho-hematopoietic tissues 291
 authorization 181, 184, 187, 190, 193, 196
 antifungal agents 285
 autopsy 314
 average size 302
 azo dye 175
 AZT 152

B

B-3 desamido insulin 140
Bacillus thuringiensis 276
 bacteria contamination 284, 285
 bacterial endotoxins test 210
 bacterial tester strains 316
 barium 304
 basophil 282
 batch-variation 265
Beta vulgaris L. 280
 betalain 280
 bezafibrate 283
 bilayers 304
 bile acids 304
 bioactivity 268
 bioavailability 309
 bioburden 311
 biodegradable granules 273, 274
 biodegradation 279
 biohazard 314
 biological indicator 275, 311
 biological products 267
 biological safety evaluation 311
 biomaterials 274
 biostatistics 298
 biotechnological recombinant-mice 314
 biotechnology 311
 biotechnology drugs 267, 310
 biotechnology products 286
 biotransformation 308
Bixa orellana 278
 bixin 278
 bleomycin 295
 BOP 291
 borneol 125
 bottle 147
 brain 314

C

C3H/HeJ mice 283
 C6 glioma cell 307
 C60 282
 C60fullerene 274
 Ca²⁺-ATPase inhibitor 283
 Ca²⁺-oscillation 288
 Ca²⁺ATPase 286
 Ca²⁺oscillation 49
 Ca²⁺signal 312
 calcium 112, 269, 310

- calcium signal 283
 calibration 208, 275
 calyculin A 269
Campanula glomerata 308
 caramel 279
 carcinogenicity 292
 carcinogenicity study 291, 295
 carcinogenesis 311
 carob germ colour 93
 cationic liposome 268
 causative product and chemical relevance 272

 thymidine kinase (*tk*) 299, 315
 thyroid carcinogenesis 291
 thyroid iodine uptake 292
 tissue accumulation 290
 tissue culture 308, 317
 tissue distribution 290, 315
 tissue engineering products 275
 titanium 273
 tobacco 266
 tocotrienol 305
 toluene 288
 toxic microorganisms 313
 toxicity 107
 toxicity study 1
 toxicokinetics 314
 toxicologic pathology system 290
 traditional medicines 310

tralomethrin 135
transporting equipment 284
transgenic 292
transgenic animals 314
transgenic mice 291
transgenic mouse 292, 296, 300
transgenic mouse mutation assay 296, 297
translocation 299, 312
transmission 314
transparency 286
transposition 285
triacetyl- β -cyclodextrin 302
tributyltin chloride 307
trichloroethylene 276
Trichosanthes kirilowii Maxim. 270
tricyclazole 305
triglyceride 303
triphenyltin chloride 307
trisodium phosphate 285
tropane alkaloid 309
trueness 309
trypsin 307
tumor-initiation 274
tumor-promotion 273, 274, 288
tyrosine-*O*-sulfate 273
tyrosine-phosphorylated protein 267

U

UJNR 313
ulinastatin 199
ultrastructure 112
ultraviolet stabilizer 280, 281
unsulfonated primary aromatic amines 280
urea 275
uremia 275
UV-ion chromatography 279
UVA 275, 276
UVB 276

V

validation 311, 315
viability 289
Vibrionaceae 284
viral safety 267
vitamin A 291, 292
vitamin C 316
vitrification 317
VLDL 283
VOC 311
volatile components 285

W

water pollution 315
Water-content 144
Weight Variation Test 204
west Bengal in India 311
WG4 311
whole embryo culture 306
World Wide Web 155, 161

X

Xeroderma Pigmentosum 289

Y

Y chromosome heterogeneity 299
yeast 276

Z

zinc 289
