

国立医薬品食品衛生研究所報告第138号キーワード索引 (アルファベット順)

A

AAV 145
acceptable daily exposure (ADE) 243
acrylamide 223
actinorhodin 154
adalimumab 132
adductomics 229
adhesion test 210
adjuvant 146
ADME 228
ADRA (amino acid derivative reactivity assay) 206
adverse effect 214
adverse outcome pathway 242
adverse outcome pathway (AOP) 238
Aeromonas salmonicida 161
aggregation 131
agricultural chemical 150, 222
alkali-heat DNA extraction 165
alkaloid 142
alkene 170
alkylating agent 171
Allergen Detection methods 222
allergen-specific IgG4 174
allergic contact dermatitis 152
alternative method 16
Alzheimer's disease 170
Ames test 201, 203, 233, 234
amino acid derivative reactivity assay (ADRA) 208
amino acids 180
AmpC beta-lactamase 163
Amphipathicity 169
Amyloid beta 170
analgesic effect 140
analytical method 211, 222
aneugen 230, 231, 232
aneurysm 150, 178
animal 164
Anodic oxidation 171
antagonist 169
Antagonists 174
Anti-allergic property 155
antibacterial activity 161
antibiotic resistance 163
anti-cancer drug 238

anti-drug antibody 132
Antimicrobial peptides 169, 171
antimicrobial resistance (AMR) 161
AOP 230, 238
Aortic diseases 178
AquAdvantage 172
aromatic hydroxylation 154
Artificial hydroponic and hydroponic-filed hybrid cultivation 155
ascidian 129
ASEM 194
assay 139
Atlantic salmon 172
atmospheric pressure chemical ionization 153
atomic force microscopy 128, 211
ATR 125, 211
azide 201
azobenzene 169

B

beagle dogs 190
beer 164
benchmark dose 202, 205
benchmark response 205
Berberine 155
BIAcore 200
bioanalysis 212
bioequivalence 135, 210
biosynthesis gene cluster 166
bleomycin 176
BMD 205
bone 194
bostrycin 158
bronchoalveolar lavage fluid 176

C

Ca²⁺ microdomains 194
calcium signaling 195
calibration 128, 170
Campylobacter coli 161
cancer 147, 238
cancer therapeutics 238
carcinogenesis 198, 231, 235

carcinogenicity 197
 cardiac safety 192
 cardiomyocyte 192
 cas no. 110-56-5 185
 Catechin 170
 category approach 204
 CD23 181
 cell cycle 147
 Cell penetrating foldmers 170
 cell proliferation 196
 cellular alignment 191
 cellular senescence 148
 cereulide 163
 C-glycoside 138
 changes in plasma concentration 135
 changes in plasma concentrations 137
 chemical substances control law 185
 chlorpromazine 153
 chromium and cobalt 152
 circular dichroism 128, 170
 citreoviridin 166
 citrinin 202
 clean analysis 137
 clinical development 5
 c-Met 138
 cocrystal 126
 co-culture 191
 Codex 225
 cold flow 122
 collagen vitrigel membrane 194
 combined effect 196
 complement-dependent cytotoxicity 129
 computational fluid dynamics 150
 computational toxicology protocols 236
 condensed tannin 138
 confocal Raman microscope 124
 confocal Raman microscopy 125
 contractility 192
 cooked rice 163
 Copper accumulation 157
 Coptis japonica 155
 CRISPR 149
 criteria 233
 Critical flicker-fusion 183
 cryopreservation 191
 cryoprotectant agent-free 191
 CSB 200

cyanobacteria 162
 CYP induction 193

D

dasatinib 188
 data integration 179
 data portal 165
 ddPCR 145
 deer meat 161
 dendritic spine 142
 denosumab 177
 dental pulp 238
 Design 171
 designated substance 214
 detection method 172
 deubiquitylation 147
 Deuteration 170
 diacetoxyscirpenol 165
 dietary supplement 142
 differentiation 193
 dimethyl sulfoxide 208
 dimethylarsinic acid 198
 Dioxin 223
 Direct Analysis in Real Time-mass spectrometer (DART-MS) 159
 disintegration test 141
 dissolution 210
 dissolution test 141
 distribution analysis 210
 DMH 199
 DNA adduct 197
 DNA polymerase 201
 DNA strip 161
 DNMT 202
 DOHaD 226
 dossier 33
 doxorubicin release 122
 drebrin 142
 drinking water 150, 222
 droplet dispersion-type 124
 Drp1 190
 D-value 185

E

E3 ligase 147

E3 modulator 220
 East Asian 176
 effect of moisture content 124
 EGFR 149
 elastic modulus 150
 electrical stimulation 191
 electro-mechanical relationship 189
 Electrosynthesis 171
 ELISA 222
 EMT phenotype 238
 endocannabinoids 143
 enterotoxigenic *Escherichia coli* 166
Entoloma rhodopolium 175
 environmental mutagen 200, 235
 Ephedra Herb 140
 ephedrine 140
 ephedrine alkaloids-free Ephedra Herb extract 214
 ephedrine alkaloids-free Ephedra Herb extract (EFE) 138
 epigenetic gene regulation 235
 epigenetic mutagen 202
 epithelial-mesenchymal transition 238
 equivalence 137
 ER stress 145
 error-reduced sequencing 229
 ESBL-producing *E. coli* 163
Escherichia albertii 167
Escherichia coli 163
 Estrogen receptor 169
 ethofumesate 152
 ethylene glycol methyl ether 204
 evaluation method 122
 excitotoxicity 193
 EXiLE method 180
 existing chemical substance 33
 expert alerts 236
 extended-spectrum beta-lactamase 163
 extracellular vesicle 179
 extra-gut sensitization 174
 eye irritation 207

F

far-infrared spectroscopy 211
 Fc γ Receptor 211
 FFPE RNA-Seq 149
 fibrosis 176

fingertip 180
 fish 163
 flavin-dependent monooxygenases 154
 flavoring agent 196
 fluorescence fingerprint 122
 Foldamer 171
 food 172
 food additive 198
 food additives 156
 food allergen 173
 Food allergens 222
 food chemical 28
 food safety 156
 Food Safety Information 28
 foods with functional claims 141

 Fourier-transformed infrared spectrometer 211
 fragment molecular orbital 225
 Function 171
 fungal allergens 165
 fungal pigment 158
 fungi 139
Fusarium toxin 164
 FXR 174

G

gamma-ray spectrometry 172
 gapmer antisense oligonucleotide 146
 gas chromatography–tandem mass spectrometry 153
 GC-MS 154
 GC-MS/MS 152
 gene molecular network pathway 238
 gene therapy 5, 145
 general anesthesia 180
 genetic toxicology 229
 genetically modified 172
 genome editing 5
 genotoxicity 230, 231, 232
 genotoxicity *in vivo* 231
 genotoxicity tests 235
 genotyping 167
 germ cells 232
 GILP17-GIL17 162
 glutamate transporter 193
 glycerophospholipids 134
 glycoengineering 129

glycosylation analysis 132, 133
 Glycyrrhiza uralensis 155
 Glycyrrhizae Radix 141
 Glycyrrhizin 141
 good cell culture practice 229
gpt delta mouse 196
gpt delta transgenic rat 199, 202
 G-quadruplex 171
 Gram-positive and Gram-negative microbes 171

H

HACCP 224
 Hachimijogan 135
 halocynthia roretzi 129
 Halogen mediator 171
 halothane-anesthetized dogs 188
 Hampi 134
 hardness 150
 h-CLAT 206
 health based exposure limit (HBEL) 243
 Heart 182
 heat treatment 128
Heimia salicifolia 142
 Helicity 169
 Helix 171
 Hemolysis 169
 HepaRG 193
 hepatitis C virus 130
 hepatitis E virus 164
 hepatotoxicity 204
 hexyl acetate 198
 hierarchical Bayesian model 156
 higher structure 171
 highly-reducing polyketide synthase 139
 High-resolution gas chromatography coupled with
 high-resolution mass spectrometry 223
 high-resolution mass spectrometry 223
 high-shear wet granulation 127
 high-throughput analysis 142
 hippocampal neurogenesis 165
 histone methylation 147
 histone modificaion 173
 HPLC 141
 HPLC/PDA 158
 human cardiomyocyte 190
 human induced pluripotent stem cell 144

human induced pluripotent stem cell-derived
 cardiomyocytes 188
 human iPS cell 193, 194
 human iPS cell-derived cardiomyocytes 189
 human iPS cells 192
 human pluripotent stem cell 144
 hyaluronan 193
 hybrid tableting pressure-time profiles 124
 hydrolysis 152
 hydrolyzed wheat protein 174
 hydrophobic tag 168
 Hydroponic cultivation 155
 hypocalcaemia 177
